TRUST/ SCHOOL	VISION 'STRAP LINE'	DETAIL ON VISION/ETHOS/MISSION STATEMENT/AIMS*
		We link this to the Christian values and beliefs that underpin the teaching and pastoral support that we offer here in our school. We believe in a reflective environment which supports children to attain the skills and empathy to treat others as they wish to be treated. Our core Christian values: Our focus Christian values are those of kindness, responsibility and respect and these are reflected in our teaching, collective worship and wider school activities and celebrations. We are guided by the Church of England Vision for Education.
CG	Achieve, Believe, Succeed	We encourage all children to be socially responsible within the school and wider community to have respect for themselves and others; to promote openness, honesty and responsibility; to be proud to be part of a caring and inclusive environment. We motivate all pupils and staff to reach their full potential through a creative and stimulating curriculum; through high standards of teaching and learning; through taking an active role within their own and others learnings; through high expectations and celebration of their success. We inspire children to become confident and caring individuals to be happy and enjoy coming to school to learn; to feel safe and secure in their schooling; to be tolerant and supportive of each other; to have an appreciation of the benefits of a healthy lifestyle.
PT	Inspiring lifelong learners in our community	We are proud to be a community school in the heart of Dartmoor using our privileged location to support our learning. We encourage children to take an active role in and love where they live through our established links with businesses and community leaders. We enable our children to do this by hosting community events, opening our school for special events and ensuring our curriculum teaches them about local history and how they can ensure our village continues to flourish. We are committed to developing the whole child with a focus on children's individual needs to ensure that every child reaches their full potential through our knowledge and skills curriculum, and we ensure our provision looks after children's mental health. We aim to ensure that each child feels valued, important and cared for which enhances the children's drive to learn and be successful. Our school has a wonderful family feel to it and we strive to ensure every member of our school enjoys being here. Our vision for the school and the children in it is to develop lifelong learners; to develop curious minds that ask questions and dig beneath the surface to find out more; to encourage children and adults to have high expectations of themselves and their peers. We are proud to provide many opportunities for children to grow and learn through learning in class; forest school; trips; extra-curricular clubs; and so much more. We are committed to helping children achieve their potential through our 'Birds of Learning' which are: Resilience, challenge, creativity, self-awareness, interdependence, making links and curiosity.
